AEROFLOW PERFORMANCE START BUTTON

WARNING!

THIS PRODUCT REQUIRES DETAILED KNOWLEDGE OF AUTOMOTIVE SYSTEMS. WE RECOMMEND THAT THIS INSTALLATION BE CARRIED OUT BY A QUALIFIED AUTOMOTIVE ELECTRICIAN.

INTRODUCTION

Congratulations on your purchase of Aeroflow Performance universal engine start switch. Aeroflow Performance products cannot and will not be responsible for any damage, or other conditions resulting from misapplication of the parts described herein. However, it is our intention to provide the best possible products for our customer, products that perform properly and satisfy your expectations. Should you have any questions? Please call technical support at +61 2 8825 1900 and have the product part number on hand when calling.

This kit comes with one engine start switch and 4 different colour covers (red, blue, orange, green). To change between different covers simply unscrew silver bezel on switch and swap out cover and reinstall silver bezel.

Refer to factory wiring diagram of each vehicle to correctly identify correct wire. Using the constant 12-volt wire, the accessories 12-volt wire and starter wire from ignition barrel. Wire into relay with appropriate wiring and fuses (not supplied in kit). Mount engine start switch in a convenient location and wire into relay.

NOTE: It is recommended to install a relay when wiring in this start switch (not supplied in kit).
